He explained that several updates were designed to bring the bylaws into compliance with state law and to improve operational efficiency. 	standardizing the timing of board elections to occur during the April annual meeting and allowing members to serve up to three full terms. Other changes include establishing a process for addressing attendance issues and clarifying how vacancies may be filled. He also highlighted a significant change related to officer elections. 	• Ms. Tate began her report by providing an update on the federal 340B drug pricing program. She explained that both federal and state policymakers are currently reviewing potential changes to the program. • Ms. Tate noted that pharmaceutical companies have been advocating for increased reporting requirements and other adjustments, which could create additional administrative burdens for health centers. • Ms. Tate shared that she, along with other leaders, recently participated in a discussion with a pharmaceutical industry lobbyist to provide insight into how the 340B program supports federally qualified health centers (FQHCs). She emphasized that revenue generated through the program is reinvested directly into patient services, operational infrastructure, and clinical support, and is critical to maintaining services for underserved populations. Pharmacy System and EMR update • Ms. Tate informed the board that CCPC is currently working with its electronic medical record vendor, OCHIN, to implement an updated pharmacy platform. She noted that any changes to the 340B program during this transition period could create additional operational and administrative challenges for the organization. City Budget Outlook • Ms. Tate advised the board that the City of Cincinnati may face budget challenges in the upcoming fiscal cycle. While no final decisions have been made, city departments have been asked to begin preparing for potential reductions due to a projected citywide budget deficit. She stated that leadership will continue monitoring the situation and will keep the board informed as more information becomes available. Board Self-Assessment • Ms. Tate informed board members that they will soon receive a board self-assessment tool. She explained that the survey will allow leadership to gather feedback from members

The event will provide an opportunity for colleagues and board members to express their appreciation for her contributions. - Ms. Cunningham thanked the board and staff for their support over the years. Q&A: • Dr. Lichtenstein asked several follow-up questions regarding the 340B program and its potential impact on pharmacy operations and reimbursements. ○ Ms. Tate and Mr. Menkhaus explained that the current program allows CCPC to acquire medications at discounted rates and pass those savings on to patients. However, some proposed changes could require organizations to pay higher upfront costs and receive rebates later, which would create both financial and administrative challenges.
