EXECUTIVE SUMMARY

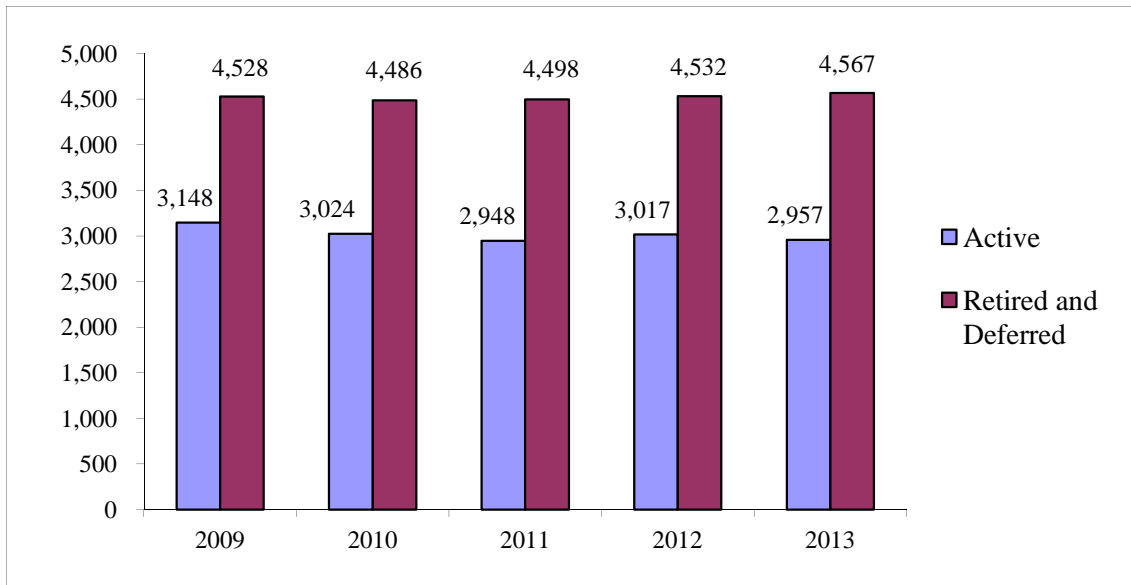

This summary outlines the main findings of the December 31, 2013 actuarial valuation of the Retirement System for the City of Cincinnati (CRS). Please note that the Pension results and the Retiree Health Benefits results have been combined for the purpose of this Executive Summary. If you wish to see individual results, please refer to the valuation reports.

Since the previous valuation, the fiscal year for the City has changed from a December 31 end to a June 30 end effective June 30, 2013. In addition, the initial per capita health care costs and the rates of health care inflation used to project the per capita health care costs have been updated to reflect the System's recent experience.

Membership

The overall System membership has been relatively stable over the last five years. The active counts have decreased from the previous year while the inactive counts have increased.

Pension Census Data - December 31

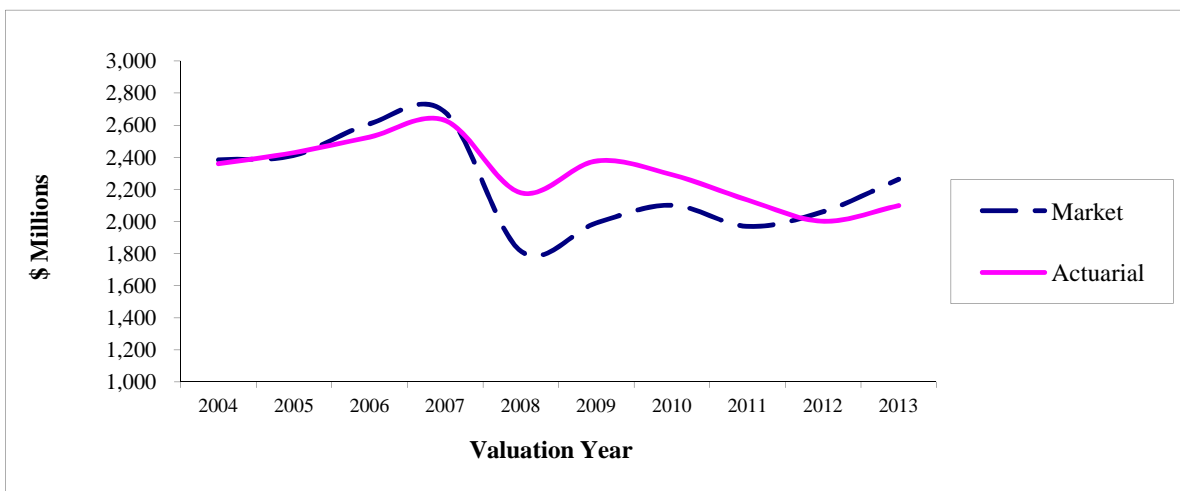

Current Assets

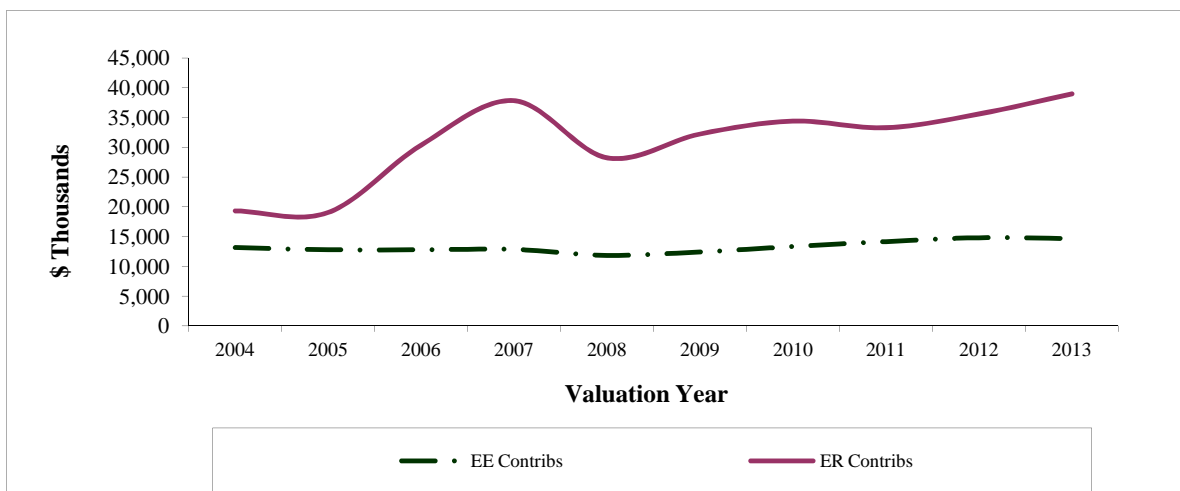

The actuarial value of assets of the System, which recognizes 20% of the unrecognized and unanticipated gains and losses, amounted to \$2,099.6 million as of December 31, 2013. This represented an increase in value of \$97.7 million from the previous year, with a weighted average actuarial value investment return between the two funds of 12.08% (which may be compared to the assumed investment return of 7.50%). The actuarial value of assets cannot be less than 80% or more than 120% of the market value of assets as of the valuation date. The market value of assets was \$2,263.6 million which represents an increase of \$201.7 million from the previous year, with a weighted average market value investment return between the two funds of 16.93%.

Below is a history of the market and actuarial value of assets and a history of contributions made by the Employers and Employees.

Current Liability

The total liability of the System as of December 31, 2013 was \$3,072.9 million. This liability may be divided into the following categories:

Value of Future Benefits to be Provided

The total liability of the System decreased by \$4.1 million from last year or about 0.1%.

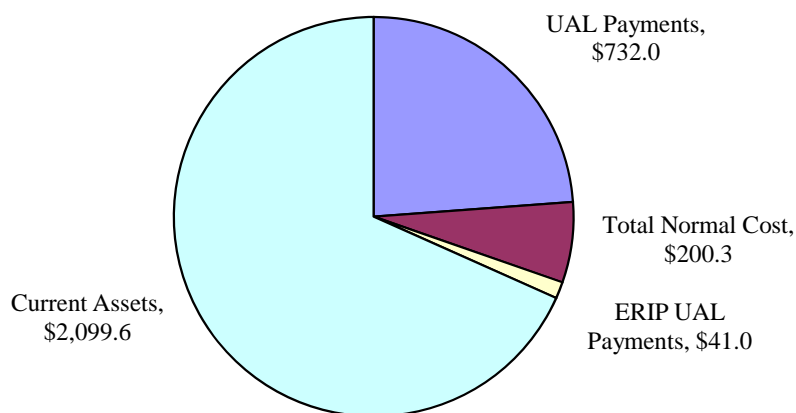

CRS financing

The \$3,072.9 million liability of the System as of December 31, 2013 will be met by funds from various sources: current assets, future member contributions and future employer contributions. In addition to the Unfunded Accrued Liability (UAL) payments that the City is required to contribute, the City is making separate contributions to fund the Early Retirement Incentive Plan (ERIP) that was offered in 2007.

The breakdown is as follows:

Financing \$3,072.9 Million of Retirement Benefit Promises

The financing plan for CRS requires employer contributions of 49.35% of payroll, which will amortize the unfunded actuarial liability as of December 31, 2013 in 30 years from the valuation date. Any liability not covered by current assets and future member contributions is to be met by future contributions by employers. Recent contribution rate allocations by fiscal year have been as follows:
